Maryland Roadside Tree Care Expert Exam Study Guide

Version 1.0

Table of Contents

Introduction

This Study Guide is intended for those individuals who are preparing to take the Maryland Roadside Tree Care Expert exam as required by the Maryland Roadside Tree Law.

The guide has ten chapters. The questions are in multiple choice, true/false, and fill in the blank formats. The exam consists of 130 multiple choice/true or false written questions and identification of 20 tree species in the field for a total of 150 possible points.

The examinee must answer 70 percent of the written questions correctly to pass, which is 91 of 130 questions and 70 percent of the tree identification, which is 14 of 20 questions. The examinee MUST pass both the written and tree identification sections of the exam to be certified as a Maryland Roadside Tree Care Expert.

The Forest Service conducts one preparatory course for Maryland Roadside Tree Care Expert examinees in each region each year. Please go to for a schedule of courses. This guide is information used during this course. Most of the material on the exam can be found within this study guide. This guide is intended for individual use and study. Any commercial or other use of the guide is prohibited.
